

my  sundaya

• a new generation of clean energy solar solutions for all! •

# my sundaya worldwide

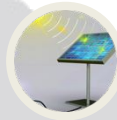

Worldwide **1.2 billion people** rely on inefficient, often dangerous, lighting, primarily kerosene. Access to even minimal electricity can lead to life-saving solutions in rural development, health, education, communications and access to clean water. Sundaya kits have reached people across the globe and proven themselves to be indispensable!

Sentul Indonesia : PT Sundaya Factory

Bali Indonesia : My Sundaya HQ

Sweden : Sundaya Nordic AB

China : Sundaya Clean Energy Co. Ltd

Sundaya makes accessible  
clean energy and energy  
education for **everyone**.

We produce the world's  
best-quality plug + play solar  
energy kits, as well as energy  
network programs to deliver  
solutions to remote communities  
and end users worldwide.

my  sundaya vision

# my sundaya

My Sundaya's rugged plug & play kits have been designed with remote communities in mind, but many people find My Sundaya kits to be a great match for their renewable energy supply needs:

- Remote communities without access to grids, or where supply is unstable
- Areas struck by disasters and post-disaster facilities and support camps
- Eco Resorts, Glamping Sites and Eco Communities
- Boaters, campers and hikers, and off-grid media makers and explorers...
- Eco-enthusiasts of all types!

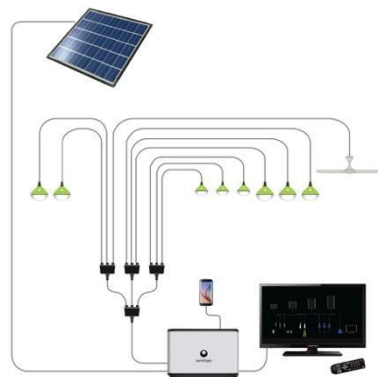

## Portable Kits

## Lighting & Day-charging Kits

## JouleBox Advanced Kits

**No matter the type  
all Sundaya Kits are:**

100% Plug & Play

Expandable Universal  
Systems (within  
product groups)

Extremely high  
quality & long-lasting

An accessible &  
affordable solution  
for everyone,  
everywhere seeking  
a healthy,  
high-quality, clean  
energy lifestyle

## Portable Kits

Welcome to the wonderful world of solar energy!

Sundaya's super affordable, water resistant portable kits are great for the outdoors and for taking your My Sundaya lighting & device charging with you wherever you go.

## JouleStick 50

## JouleStick 50PK

## JouleStick 200

## JouleStick 200PK

## JouLite 150

## JouLite 150 x 2

The JouleStick 50 is an extremely affordable, portable, water resistant solar-powered 50 lumen LED flashlight, reading lamp and device charger that gives up to 24 hours of bright light after just 8 hours in the sun

### Comes in 2 variations:

- Light Only (JouleStick 50)
- Light + Device Charger (JouleStick 50PK)

The JouleStick 200 has 3 light settings in a portable, efficient, water resistant solar-powered 200 lumen LED flashlight, reading lamp and device charger. Gives up to 60 hours of bright light after just one & a half days in the sun.

### Comes in 2 variations:

- Light Only (JouleStick 200)
- Light + Device Charger (JouleStick 200PK)

The JouLite is a highly efficient, fast-charging, water resistant solar-powered 150 lumen LED flashlight, reading lamp and device charger that provides up to 60 hours of bright light after just 3 hours in the sun.

### Comes in 2 variations:

- Single light (JouLite 150)
- 2 Light (JouLite 150x2)

my  sundaya

## Lighting Kits

Sundaya's indoor / outdoor, water resistant plug and play lighting kits have the batteries built into the lamps so they can be used on site or on the road or at sea.

The kits come in super bright 180 lumen & 240 lumen lamp options in two types of kits that can be mixed & matched for expandable systems.

## Ulitium Kit

## my sundaya Lighting Kits

Both the Ulitium & T-Lite Lighting Kits are extremely easy to install (plug & play). They feature high quality Lithium Ion batteries built into the lamp bodies, which means they can also be portable for both indoor and outdoor activities.

- Both kits come in : Single Lamp, 2 Lamp, 3 Lamp and 4 Lamp Kits options
- Expandable & universal, you can mix & match kit components
- Compatible with optional daylight device charging attachment
- When cables connected, completely resistant to splashes and rain

### Ulitium

- Super bright 240 Lumen dimmable lamps
- Uses easy to use pull adjustable cord, which also functions as dimmer
- Can be used as a flashlight

### T-Lite

- Very bright 180 Lumen dimmable lamps
- Uses touch on/off switch, which also functions as dimmer
- Can be used as a flashlight or portable table top light

## T-Lite Kit

## Advanced Kits

Charge handphones, smartphones, tablets & other devices through 2 USB Ports

11 plug and play, indoor / outdoor LED hanging lamps & DC Fan

Up to 100 channels + HDMI/ USB on a 24" LED TV / doubles as an external computer monitor

# Sundaya is... built to last

**My Sundaya batteries** have a useful life of up to 10 years - depending on usage - and most other kit components have a useful life of up to 20 years.

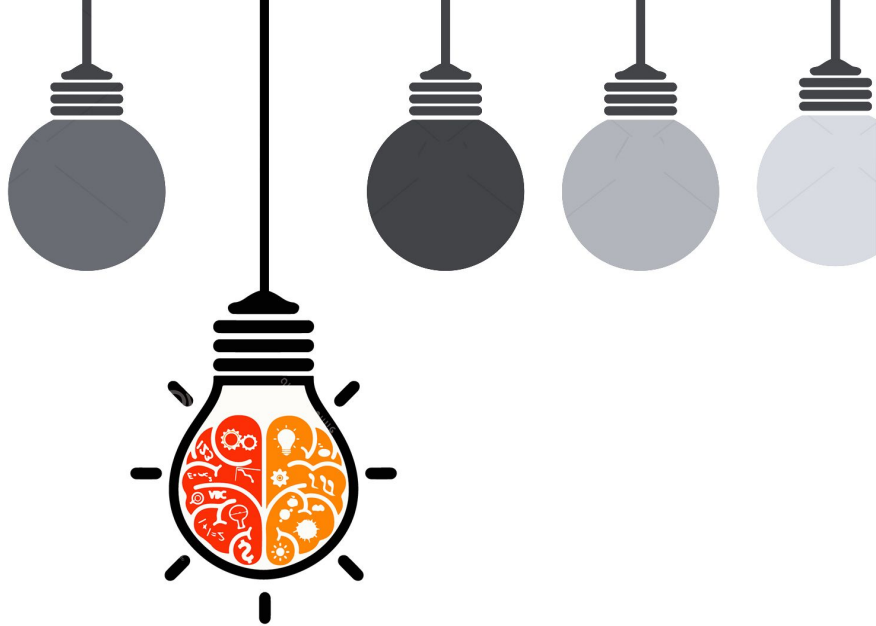

My Sundaya products include at minimum a 6-month complete manufacturer's guarantee on all items with some components warranties extending on to 12 months and more.

Sundaya products are designed to be robust and durable in all weather conditions, almost all of our products are splash water-proof, and can be used indoors or outdoors (the JouleBox battery hub and television are the two exceptions).

# Energy Literacy for All!

All My Sundaya program partners will have access to presentations, low-literacy friendly animations, videos, printed childrens activities, comic books, and more. that will bring essential information about clean & healthy energy to remote communities, schools & local leaders.

Sundaya's high-impact outreach media will be filled with relevant, dynamic, empowering, and timely information building a worldwide community of well-informed and active change makers.

My Sundaya's Joule-based unified energy measurement makes it easy for everyone to understand how energy is harvested, stored, and used - with every component stamped with its equivalent Joule usage, **even our products deliver education on the nature of energy use!**

## Sundaya Clean Energy Solutions in the Home

- No more health impacts due to burning kerosene indoors
- Children safely do their studies, homework at night
- Mothers have reliable, clean lighting to cook meals
- Versatile kits provide both fixed & portable lighting
- Instant access to TV, news, education as well as personal electronic & communications device charging

## Sundaya Clean Energy for Local Economies

- Night market and sellers safe, portable lighting solution
- Mobile vendor stall lighting
- Light for fishing activities
- Pollution free handphone & device charging stations
- Reliable, constant access to local enterprise energy needs at a fraction of the cost

## Sundaya Clean Energy for Disaster Relief

- Plug & Play instant energy solution for any location in pretty much any condition
- Container packs configured for optimum relief fulfillment
- Continue to be useful through to recovery and rehabilitation
- Everything needed is in the box & kits can be immediately installed by end users

## EcoTourism Solutions

Sundaya products are affordable, waterproof, and portable = very suitable for eco-friendly outdoor use.

Our advanced kits can be used for : lighting, fans, laptops and device charging, TVs & more.

### Sundaya kits are perfect for:

- Eco Resorts & Homestays
- Huts & Bungalows
- Floating Facilities
- Camping & Glamping Tents
- Even Boats

# the **sundaya** group

- **PT Sundaya** has been developing and manufacturing renewable energy solutions in Indonesia since 1993. The PT Sundaya team includes about 150 people, mostly based at the PT Sundaya factory in Sentul, West Java
- Outreach, Marketing & Education Programs are handled by **My Sundaya** - HQ based in Bali
- Pay-As-You-Go Program is being developed under the brand **Sundaya SENS**, the pilot program for which will happen in Bali

**Energy Literacy** We inspire clean, renewable energy through education.

**Accessible for All** We develop high quality, accessible / affordable, and durable solar solutions for everyone.

**Environment (Less waste, CO2 reduction)** Our solutions promote environmental health through long usage, with less waste and global CO2 reductions.

**Community Empowerment & Development** is about working in ways which empower people to become and remain involved in their own cooperative solutions and development.

**Sharing & Capacity Building** We prepare our clients to do the work for themselves, rather than be dependent on external support. With knowledge, tools, and planning, we develop effective and self-sufficient programs.

**Scalable for Widespread Application** Sundaya creates scalable solutions. Our mission is designed to reach large numbers at a descending cost per unit.
